# Vision & Mission

### Vision

To be the preferred choice for accessible and innovative healthcare solutions in East Africa and beyond.

### Mission

Our continued mission is to provide a responsive healing environment for our clients, their families and Powering Affordable Care

# OUR VALUES

## COMMUNICATION

We strive to promote an Open and Honest exchange of ideas whilst addressing pressing and difficult issues Directly, Respectfully, Honestly and in a Timely Manner.

## HUMAN DIGNITY & COMPASSION

We strive to treat all our clients with consideration and kindness regardless of diverse backgrounds and lifestyles.

## TRUST

At Brimaxa Hospital, we pledge to treat one another with Respect, Dignity and Loyalty.

## CORPORATE SOCIAL RESPONSIBILITY

We remain conscious of the impact our hospital has on the economic, social, and environmental well-being of the communities we serve.

## TEAM WORK

We Affirm, Acknowledge and Recognize the Intrinsic Value and Strength that our employees depict in developing high quality medical solutions.

## INTEGRITY

Brimaxa Hospital acts and is guided by the principles of Transparency, Fairness and Honesty in the way we conduct our business and individual behavior.

## EXCELLENCE

We are committed to continuous improvement and development of our services and standards of care at the same time ensuring that we continue to provide the highest level of medical excellence.

# PILLARS OF SUCCESS

**WITHIN A CONTEXT OF EVOLVING HEALTHCARE NEEDS, WHERE MEDICAL CONDITIONS ARE MORE AND MORE COMPLEX, THE SUPPORT OF AN ATTENTIVE, RELIABLE HEALTHCARE PROVIDER IS ESSENTIAL.**

Our specialty-specific dedicated departments provide the necessary backbone for comprehensive and holistic patient care.

Choosing Brimaxa Hospital gives you the assurance of specialized expertise and advanced healthcare services thanks to our:

## I. INFRASTRUCTURE

Brimaxa Hospital has a unique combination of the best in class technology, put to use by some of the great minds in the medical professional circles enabling excellent health care to our in-patient and outpatient clients.

### Bed Capacity

With a capacity of 80 beds with dedicated critical care beds and 2 modular operation theatres, our facility has 6 hospital wards i.e. Male, Female, Paediatric, Maternity, Delivery Unit & Private Wings.

### Diagnostic & Medical Equipment

We have the latest generation medical Diagnostic and Imaging facilities in Radiology, Ultrasound with 3D and 4D imaging and Dialysis to name a few.

### Critical Care

Additionally, we provide process-driven Critical Care services. All critical care beds are in the close vicinity of the Operation Theatre complex for easy accessibility and continuity of care. Each Critical care unit is equipped with high-end patient monitoring devices, and ventilators.

### Services Management System

Brimaxa Hospital is a paper-less healthcare facility with a top of the line Integrated Hospital Management System (IHMS) which is connected across outpatient, inpatient and diagnostic areas.

### Specialty Services

Some of our services include and not limited to General Practice, Specialty Clinics, Pharmacy, Laboratory, Endoscopy, Radiology, Imaging, comprehensive Mother & Child care including advanced IVF and Ambulatory services among others.

### Building Management System

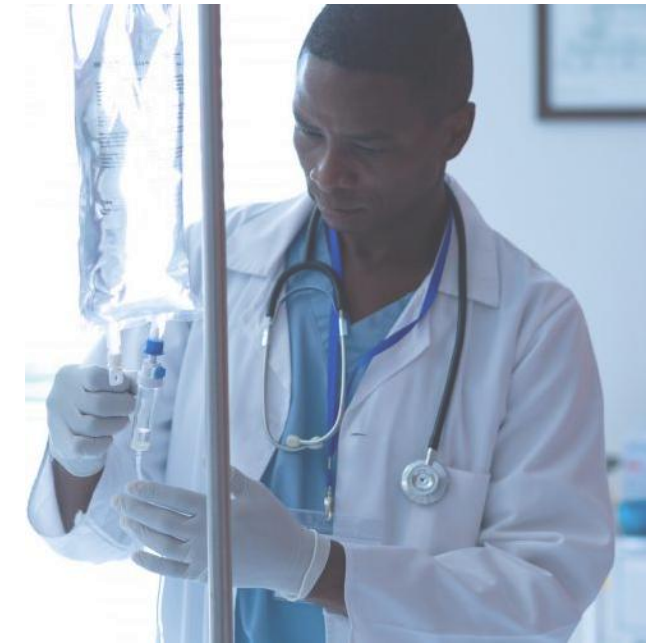

The Hospital's advanced Building Management System provides for multi-tiered access control, electronic security systems with integrated CCTVs spanning across the facility and advanced fire management system amongst other utilities.

## II. OUR PEOPLE & LEADERSHIP

A positive working environment, a cohesive management team, a motivated work force, a clear mission, and a deep-rooted sense of commitment and concern for the well-being of our customers, are pivotal to achieving demanding objectives and advancing the capabilities of our hospital.

Brimaxa Hospital's leadership team drives and supports our healthcare facility to accomplish our mission to provide compassionate patient care with seamless coordination and to advance medicine through unrivaled outreach in the diverse communities we serve.

This exceptional team of industry experts brings the vision and management expertise that enables us to continue to grow and challenge convention through our pioneering spirit, scientific advancements, forward-thinking leadership, and collaborative approach to offering exceptional patient care.

## III. DIVERSITY AND INCLUSION

Brimaxa Hospital embraces diversity and inclusion as key drivers for success and innovation for unrivaled healthcare service delivery, medical and health education, and research. Our business focus champions a diverse workforce, strives to create a multicultural environment, and fosters an inclusive setting to ensure delivery of superior care to the diverse patient populations in East Africa and beyond.

We recognize the need to ensure that Brimaxa Hospital's clinical, research and administrative leadership; staff; residents, volunteers and interns represent the diverse communities we serve and provide culturally effective patient care.

## Diversity and Inclusion Programs

In response to this need, we have initiatives and programs in the following domains:

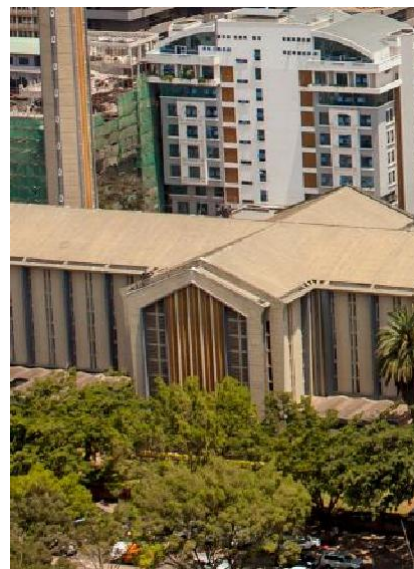

- Community Engagement
- Education and Training
- Employee Resource Groups
- Leadership, Talent and Faculty Development
- People with Disabilities
- Recruitment, Retention and Advancement
- Supplier Diversity

## 01

### Proximity & Access

Brimaxa Hospital is not only a welcome improvement to the Busia Healthcare Provider Landscape but is also a noteworthy addition to Busia's healthcare scene; working to reshape healthcare by delivering much needed quality, service and value.

Our healthcare centre is strategically situated within close proximity to Busia's town centre; easily accessible through public and private transport means.

## 02

### Quality and Safety

At Brimaxa Hospital, we strive to provide the best possible healthcare for our patients. We evaluate many aspects of our care processes and our clinical outcomes in both the hospital and ambulatory settings to ensure that our patients get the very best care available.

Our primary goal is to improve the health of the individuals and diverse communities we serve through the integration of outstanding patient care, education, research and community partnerships.

## 03

### Accreditations & Certifications

- Medical Practitioners and Dentists Board
- Pharmacy and Poisons Board, Kenya
- Kenya Medical Laboratory Technicians and Technologists Board
- Radiation Protection Board
- National Environment Management Authority (NEMA)

## B. OUR SPECIALTIES

Brimaxa Hospital provides a wide spectrum of Specialty Services in a variety of fields, providing patient-centered care that meets the healthcare needs of our clients.

Brimaxa Hospital's range of services offered and state-of-the-art infrastructure make it a force to reckon with in the medical field.

# PRIMARY CARE

Your first line of care for a wide variety of your medical needs your first line of care for a wide variety of your medical needs

Our primary care physicians (PCP) play a critical role in your overall health. They get to know you and answer your most important healthcare questions. Brimaxa Hospital's GPs are a partner whose medical guidance is informed by an ongoing relationship with you and your family.

You might need protection from flu season, an annual physical, or symptoms that need treatment. Regular visits to your family doctor offer the best prevention and care for your health needs.

- FAMILY MEDICINE

## FERTILITY & IVF TREATMENT

### Putting You in Charge of Your Fertility Future

Our fertility and IVF Clinic provides personalized, quality fertility care. As one of the leading fertility centers in Kenya, our dedicated staff has helped couples realize their dreams of creating a family.

We offer next-generation fertility care, combining our expertise and commitment to compassionate care with advanced technology

### Infertility and IVF treatment services:

- Fertility assessment & consultation
- Fertility medication management
- Intrauterine insemination (IUI)
- In vitro fertilization (IVF)
- Sperm analysis
- Embryo freezing
- Sperm freezing

**NB:** *The inability to conceive is usually due to disorders that affect the normal function of the reproductive system, resulting in obstacles that prevent natural fertilization. Infertility can be caused by problems with the man or woman, or even completely unknown causes.*

## ACCIDENT & EMERGENCY (A&E)

The Accident & Emergency department at the Brimaxa Hospital is open 24 hours, 7 days a week and provides high quality emergency care to adults and children of all ages.

### Facilities

- 24-hour emergency room
- Trauma Center
- Private examination rooms including OB/GYN and eye examination facilities
- Observation area
- Ambulance and critical care transport fleet

## WHY CHOOSE US?

### The Right Care, the First Time!

We believe successful treatment starts with accurate diagnosis.

**Collaborative Care, Focused on You!**  
Our multi-disciplinary teams of doctors in one single place, means that you are not just getting just one opinion, you get exactly the care you need.

**Assurance of Peace of Mind & Priority on Your Health!**

All your visits to BrimaxaHospital as your primary care provider offer the best prevention and care for your healthcare needs.
